Holiday Assignments

Class – Nursery (Session: 2018-19)

Dear Parents,

Greetings from Cambridge School Indirapuram!

As parents, it is important to invest your time with your children. Enjoy their childhood as in a few years from now they'll be all grown up and on their own!

Here's a list of shared activities which you can enjoy with your children and cherish these times forever.

- Eat at least two meals together with your children. Ask them not to waste food and explain to them the importance of the hard work the farmers put in to grow food.
- Let them pick up their plates and put them in the kitchen. Children learn dignity of labour from such activities.
- Avoid giving junk food like chocolates, jellies, cakes, wafers, aerated drinks and fried stuff to your children. Cultivate a healthy eating habit among them.
- Share your family history and stories about your childhood.
- Visit elderly relatives and let your children bond with them. Click pictures with them. This emotional support and love is important for your children.
- Take your children to a local market.
- Take your children to your work place so that they get an insight into the amount of hard work you do to support the family.
- Keep your children's screen time limited. Screens include T.V., mobile phones, computers and other electronic gadgets.
- Narrate many age appropriate stories to your child.
- Holiday homework is given basically to instill self discipline, learning and time planning. It is suggested that every day the child should spend some time studying or doing an interesting and constructive activity.

Best wishes for a marvellous time with your children!

Vacations are a time to enjoy. Let the child have loads of fun, play indoor games, meet relatives and friends, go for morning walks, go out for picnics, play outdoors, eat lot of fruits and drink plenty of juices, splash around in the pool, watch their favourite cartoon and read stories every day...

It is great to relax but do try and remember to make children follow a routine and make them practice things such as:

- Colouring (in order to develop their fine motor skills.)
- Practice basic patterns such as sleeping, standing, slanting, zig – zag lines respectively, curves and waves.
- Phonetic drill of a –z should be done on a daily basis. Refer to Pg. No. 5 of the Educational Programme booklet. A copy of the same is given on the next page for your reference.
