## Class 3, Session: 2024-25
## Holiday Assignment

**Dear Parents,**

Greetings from Cambridge School, Indirapuram!

As parents, it is important to invest your time with your children now. Enjoy their childhood as in a few years from now they'll be all grown up and on their own!

To cherish these moments, here's a list of suggested activities which you can enjoy with your children:

- Share stories about your childhood and your family history.
- Take at least two meals together with your children. Ask them not to waste their food and explain to them, the importance of the hard work the farmers do to grow food.
- Allow them to help you in the kitchen or other household chores. Children learn dignity of labour from such activities.
- Allow your children to read as many age-appropriate story books, as possible.
- Keep your children's screen time limited. Screens include T.V., mobile phones, computers and other electronic gadgets.
- Avoid giving junk food like chocolates, jellies, cakes, wafers, aerated drinks, fried stuff. Cultivate a healthy eating habit among your children.

Make the most of the summer break and enjoy this time with your children.

## SCIENCE

**Be a smart kid!**

As our school is working towards many sustainable goals, we want you to spread it outside our premises towards our society. Form a smart children's group and start a cleanliness drive in your society or locality.

- Adopt a plant, water it daily twice during your leisure time.
- Do your bit to save power and water.
- Donate old clothes and toys to charity.
- Carry re-usable bags when you go for shopping.

**1) Know the Air Around You:**

Air pollution is a major problem and threat to today's growing world. Every day the rate of air pollution in the atmosphere is getting higher. Being a part of sustainable development program try to find out how it is caused; what are its impacts and what majors should we follow to prevent our world from this problem. Gather all the information together and club them on a recycled A4 sheet.

**2) Let's Go Green**

This summer, let's become gardeners and learn about some farming too. Have fun growing a plant. You can grow a plant or herb such as mint, coriander, lettuce, ornamental plants, air purifier plants etc. that too in used coconut shells, discarded plastic bottles, jugs, broken coffee mugs etc. Follow all safety precautions while handling the gardening equipment. Involve your family members also in the activity.

## SOCIAL STUDIES

❖ Holidays are an opportunity to have fun, learn and grow. So, let's do some research work.

You may use materials such as cardboard, old cardboard boxes, A3 sheet, pictures from magazines and newspaper etc.

Collect information and make a project/ innovative model on any one of the following.

- Make an innovative working model demonstrating the Sun, the eight planets, the asteroid belt, and planetary rings.

**OR**

- Make an innovative working model on Solar energy – how it is made and used, showcasing the production and utilization of solar energy which is renewable energy, environment friendly and helps in conserving natural resources.

**OR**

- Create models representing the national symbols of India- any two symbols.

❖ We all love to spend time with our grandparents, but have you ever wondered how their lives were different from ours? This is an opportunity to talk and find out more from your grandparents or any other elderly person you know and do any **two** of the worksheets given on Page Nos. 5, 6 and 7.
